SUMMARY

Dynamic and skilled Web Developer with a strong knowledge in software development, gained through academic and professional experiences. Developed a CRM software using the .NET MVC Framework and C# during an internship at Rife Software. Built various systems, including a Production Planning Control, Internal Messaging System, Leave Request, and Courier Management Systems, while working at ABM Wood Decor. Currently pursuing a Master's in Software Engineering at Ontario Tech University in Canada, with enhanced expertise in Laravel, React.js, and Next.js. Proficient in multiple programming languages and databases, including .NET MVC, SQL, MySQL, PHP, and modern JavaScript frameworks.

EDUCATION

Ontario Tech University

Master's in Software Engineering
2024-2026(Expected)

Gujarat Technological University

Bachelor's in Computer Engineering
2019 - 2023

SKILLS

- **Programming Languages & Frameworks:** .NET MVC Framework, C#, PHP, Laravel, Next.js
- **Front-End:** HTML, CSS, JavaScript, Bootstrap, React.js
- **Databases:** SQL, MySQL, MongoDB
- **Web Development:** Frontend and Backend Development, API Integration, Full-Stack Development.

- **Version Control:** Git & Github

PROJECTS

- CRM Software Development
- Production Planning Control System
- Internal Messaging and Leave Request Systems
- Courier Management System
- WordPress Plugins
- OTU Hub

PROFESSIONAL EXPERIENCE

Web Developer

ABM Wood Decor PVT. LTD. (Evershine Group) | 2023 - 2024

- Developed key business application, including Production Planning Control, Internal Mailing System, Leave Request e-Form, and Courier Management Systems.
- Utilized PHP and MySQL for backend development, leading to improved data handling and system efficiency.
- Delivered scalable, user-focused solutions to improve operational efficiency by using HTML, CSS, Bootstrap, and JavaScript.
- Integrated automated workflows to streamline business operations and reduce manual workload
- Collaborated closely with department heads to understand business needs and tailor software solutions accordingly
- Performed code reviews and troubleshooting to maintain code quality and application reliability
- Documented system features, functionalities, and development processes to support future maintenance and scalability

Software Developer Intern

Rife Software | Jan 2023 - May 2023

- Developed a CRM Software using .NET MVC Framework and C#, resulting in streamlined client management processes.
- Wrote optimized SQL queries to improve system performance and database operations.
- Conducted software testing to identify and fix bugs, ensuring reliable and high-performing application functionality.
- Collaborated with senior developers and stakeholders to define project requirements and deliverables.
- Gained experience in Agile development methodologies and task prioritization.
